

Product Sheet

ZIPP 6

Manual tong stapler for setting end pieces when processing endless zippers with a chain width of 6 mm.

Manual tong stapler for setting end pieces when processing endless zippers up to 6 mm chain width. This tong stitcher rationalizes the time-consuming work with end piece tongs, where end pieces have to be inserted individually before each stitching operation. It is also a cost-effective alternative to the use of hopper systems, bridging the gap between the two variants. Suitable for the textile processing industry, medical supply stores and tailoring companies.

Techn. Details: ZIPP 6

Product category	Clothing & Textile » Zipper applications
Loading capacity	1 staple strip (approx. 50 staples)
Mouth width	1 cm
Insertion depth	3,4 cm
Staple Type	Closed
Weight	500 grams
Bracket type	EZM 6 1,5 MS D
