

## Product Sheet

# ZIPP

**Manual tong stapler for setting end pieces when processing endless zippers Processing endless plastic zippers with chain widths of 4 and 5 mm.**

Manual tong stitcher for setting end pieces when processing endless zippers up to 5 mm chain width. This tong stitcher rationalizes the time-consuming work with end piece tongs, where end pieces from each stitching have to be inserted individually. It is also a cost-effective alternative to the use of hopper systems, thus bridging the gap between the two variants. Suitable for the textile processing industry, medical supply stores and tailoring companies.

## Techn. Details: ZIPP

Product category	Clothing & Textile » Zipper applications
Loading capacity	1 staple strip (approx. 50 staples)
Mouth width	1 cm
Insertion depth	3,4 cm
Staple Type	Closed
Weight	400 grams
Bracket type	EZM 1,5 MS D

Special accessories:

Manual retaining bracket for slider
